

## Right to Life Michiana Seeks Qualified Program Specialist

Fifty-two years ago, eleven passionate individuals cared enough to make a difference. They formed Right to Life around a kitchen table, and from their efforts came the impact of countless lives saved.

Today, Right to Life Michiana remains steadfast in its mission to uphold the undeniable dignity of human life from fertilization to natural death, relying on the generosity, skill, determination, and expertise of a community united in the fundamental belief that **life is precious**.

While we have grown to impact more lives than ever before in St. Joseph County, Elkhart County, and the nine contiguous counties in northern Indiana and southern Michigan, our heart has not changed.

Thanks to our founders' foresight, we operate with a simple yet powerful vision of **good people** coming together to do **good work**, all **for good's sake**.

Today, we have a seat open around the table waiting for Right to Life Michiana's next Program Specialist. In this role, you'll join a team of devoted individuals to lead collaborative and innovative efforts fueled by a community that extends well beyond our office.

As Program Specialist, you will focus on our critical goal of educating hearts and minds to save lives and recognize the value of our most precious gift.

We invite you to consider this opportunity to grow and develop the organization's educational initiatives as we navigate an era unlike any the pro-life movement has seen before.

Please see the formal Program Specialist position description, attached, and direct all inquiries, cover letters, and resumes to Right to Life Michiana's Executive Director, Antonio Marchi, via email at [executivedirector@prolifemichiana.org](mailto:executivedirector@prolifemichiana.org).
