

MARCH FOR LIFE

Guideline to Homemade Pro-Life Signs
January 2024

sponsored by

We recommend using poster board and tempera paint or thick markers!

Keeping your sign to 4-8 words can help with its readability as viewers catch a quick glimpse.

If you have a way to print a graphic design, create one on the computer!

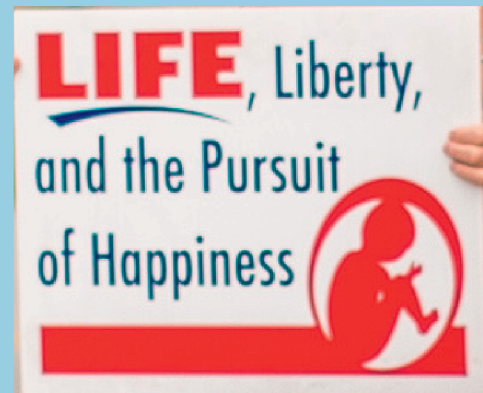

Show everyone how beautiful those babies are!

It's great to make a sign that encourages women!

If you have questions about whether your sign idea is appropriate for the March for Life on January 19 or Elkhart Life Chain on January 20, please do not hesitate to call us and ask at 574-232-LIFE, or email Right to Life Michiana at life@prolifemichiana.org.

Although Right to Life Michiana does not specifically involve in the more political aspects of the abortion issue, we do love patriotism.

Using contrasting colors can help with your sign's readability as viewers quickly see your sign.

A sign promoting adoption is always a great choice. 😊

We love to see pro-life animals!

A good scientific slogan is awesome as long as the facts are right!

Los carteles en español siempre son bienvenidos.

Since we love where we live, it's fine to make a sign mentioning South Bend, Mishawaka, Elkhart, etc.! You may also mention Indiana.

Those holding signs which display graphic imagery or overly political, aggressive, or otherwise inappropriate slogans will be asked to step aside from the South Bend March for Life or Elkhart Life Chain as such methods are not consistent with Right to Life Michiana's peaceful and prayerful guidelines for this event.
